WHEN IT COMES TO NUTRITION AND CHESS, IT'S ALL ABOUT MAKING THE RIGHT MOVES!

**Akshayakalpa
Organic**

Akshayakalpa Organic is aware of how broken the food ecosystem is and is on a constant journey to be better at delivering nutrition by fixing things from the source - whether it is the soil, food, or organic farming practices. By combining science and honouring our traditions, we can sustain our bond with food and create a better ecosystem for generations to come, while also healing the planet.

We, at Akshayakalpa Organic, are on board as chess enthusiasts. We take pride in supporting the game that came from our homeland and stand by the people who play the sport with the nutrition they require!

Chess and nutrition share similarities in requiring planning, strategy, balance, focus, practice, and discipline. Both demand forward thinking and adaptation to changing circumstances. Good nutrition is crucial for optimal brain and physical function, while a well-planned strategy is vital for winning in chess.

Our goal is to change perceptions about organic food and demonstrate its inherent nutritional value by working with nature.

*We have launched the “**Good Food Movement**” to encourage consumers to visit our farms and connect with the source of food. You can ask us tough questions because when you do so, more organizations will push themselves to do better! So far, we have had over 10,000 visitors connect with the source of food at our farms located in Tiptur, Karnataka, and Pooriyambakkam, Tamil Nadu. Come aboard and be a part of this journey in eating better by connecting with the source of food for nutrition that is truly nutritious by nature!*
